S113 BT

Portable Bluetooth speaker with NFC pairing

Forget the wires and cables. With ARCTIC's **S113 BT** Bluetooth speaker, say goodbye to the thin and distorted sound of your mobile phone or tablet and enjoy your music clean and room-filling.

The **S113 BT** is equipped with NFC, allowing automatic pairing by simply tapping your NFC enabled Smartphone on the speaker. The **S113 BT** supports the Apt-X codec for a boost in sound quality, while any AAC compatible iOS device will enjoy lossless streaming, leaving the listener pleasantly surprised by the overall experience.

The rechargeable lithium polymer battery powers the speaker to continuously play for 8 hours on one charge and thanks to Bluetooth's 4.0 technology, the **S113 BT** can stay on standby for up to 700 hours. The Omni-directional microphone Makes this Bluetooth speaker perfect for conference calling.
